

Introducing...

Just Pic'd™ Produce Sign System

... featuring Fresh Facts® nutrition information combined with striking photographic images. Clamp-Swing's newest stock sign program will make your Produce Department spring to life. The unique Just Pic'd graphics add sparkling color and provides valuable information to help you merchandise to an ever-changing population that is increasingly concerned about the fresh foods they eat.

Hundreds of different fruits and vegetables are depicted for products regularly offered in your stores. The system has been designed to allow you to customize your display, quickly and inexpensively. Promote the latest products with full color graphics, professionally printed on durable plastic materials.

The components and tracks are compatible with the 6-track systems in use today. They can be attached to all common fixtures including Single and Multi-Deck Canopy Cases, Island and Euro Tables and Orchard Bins. In addition, small holders can be placed adjacent to specialty items and our industry-leading FrameWorks® will promote your featured displays.

Tracks & View-Lok® Attachments

6-Track Moulding, 7 3/4" high, 4-foot lengths with foam tape on the back. Features an extra channel for 7" high signs and slots for adding messages to the top or bottom of the track.

2-Track Moulding, 2 5/8" high, 4-foot lengths with foam tape on the back and slots to hold additional messages at both the top and bottom.

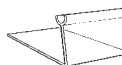

2-Track Moulding for Multi-Decks and Small Holders, 4-foot lengths for Multi-Decks and 4" lengths for Small Holders with patent pending double View-Lok mating detail to allow the moulding to be angled for best viewing with a variety of attachments. For Multi-Decks use three HTC-C2, WRC-2BK or PMCX-C2 adaptors with each length. Small Holders are suitable for placing directly with the product using any of our standard View-Lok Attachments, including the new VAS8-BK adjustable stem shown below. Slots to hold additional messages are provided on the back at both the top and bottom.

Model HTC-C2, patented Hussmann/Tyler Clip snaps over some of the Hussmann and Tyler 1 1/4" mouldings to hold the Multi-Deck Moulding.

Model PMCX-C2, Plastic Moulding Clip fits most 1 1/4" mouldings to hold the Multi-Deck Moulding.

Model EB, EB1, EB2, EB3, & EB5, Easel Base for Small Holders, with connector raised 0", 1", 2", 3", or 5".

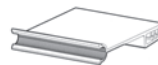

Model GC, Glass Clip for Small Holders, fits trays up to 1/4" thick.

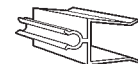

U-Clips, Universal Clips, small or medium sized clips coupled with 3 different holders and a variety of stem lengths. UC-22 shown.

Model EX-3, 3" Extension fits any View-Lok adaptor to increase the height.

WRC-2BK, Wet Rack Clip grips onto thin metal shelves to hold the Multi-Deck Moulding.

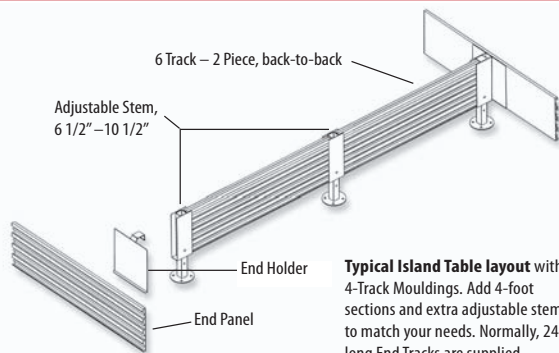

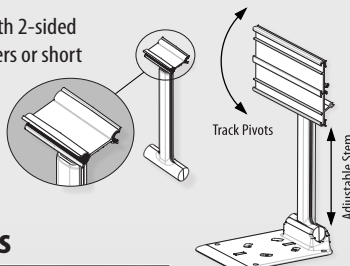

Model SC750, Shelf Clip for Small Holders. Fits many vacuum formed trays or shelves up to 3/4" thick.

Model PPC, Plastic Pan Clip for Small Holders fits most baskets and trays.

VAS8-BK, 8"-12" adjustable stem with 2-sided View-Lok detail for use with Small Holders or short lengths of Multi-Deck Mouldings. The perfect answer for island displays with bins of varying sizes. Works with FrameWorks bases.

Typical Island Table layout with 4-Track Mouldings. Add 4-foot sections and extra adjustable stems to match your needs. Normally, 24" long End Tracks are supplied.
